Project Report: Domestic Wiring Demonstration Board for a Village Skill Centre

Trainee: Ravi Kumar Patel (Electrician) | Version 1 - first draft

Aim

To make a wiring board for the skill centre.

Work done

I made a board with a light, a fan and a socket. I used wires and switches and an MCB. I fixed everything on a plywood board and connected it. It is working.

The board will be used to teach village youth.

Conclusion

The board is ready. It was a good project.
